<b>Answer:</b>	<p>Please check that the add-on has been installed successfully and enabled.</p> <p>Then refresh the <b>Confluence Administration</b> page.</p> <p>If you still cannot see the <b>ServiceRock et Plugin</b> menu (so you can install the license), try appending the URL below after your Confluence web address:</p> <pre>/admin /plugins /srtracking /license. action</pre> <p>For example:</p> <pre>https://docs . servicerocke t.com/admin /plugins /srtracking /license. action</pre> <p>Access the link and you should now be able to install the license.</p> <p>If this still does not work, try restarting your Confluence instance.</p>
